English

TutorDesk

User guide

Classes, attendance, fees and reminders – all in one place, on your phone or computer.

- Keep your classes, timetable and students in one place
- Mark attendance in a few taps
- Record fees and send receipts on WhatsApp
- Remind parents in English, Sinhala or Tamil

What's inside

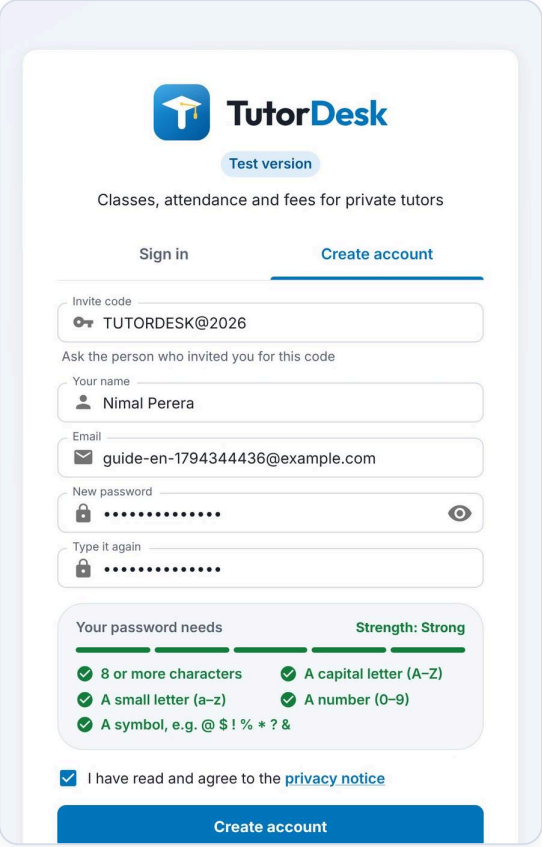

1. Getting started
2. Finding your way around
3. Setting up your classes
4. Changing the timetable
5. Adding students
6. Taking attendance
7. Fees, payments and receipts
8. Reminders to parents
9. Settings and your data
10. Help and feedback

1 Getting started

You only need an email address and the invite code you were given.

1. Open the TutorDesk link on your phone or computer and tap **Create account**.
2. Type the **Invite code** `TUTORDESK@2026`, then **Your name** and **Email**.
3. Choose a password. The checklist under it turns green as each rule is met: 8+ characters, a capital letter, a small letter, a number and one symbol such as @ or #.
4. Tick the box to agree to the privacy notice, then tap **Create account**.
5. Next time, open the link and use **Sign in**. Forgot your password? Tap **Forgot password?** and we'll email you a link.

> 💡 **Tip** Your account starts empty. Add your classes first, then your students – Home shows buttons for both.

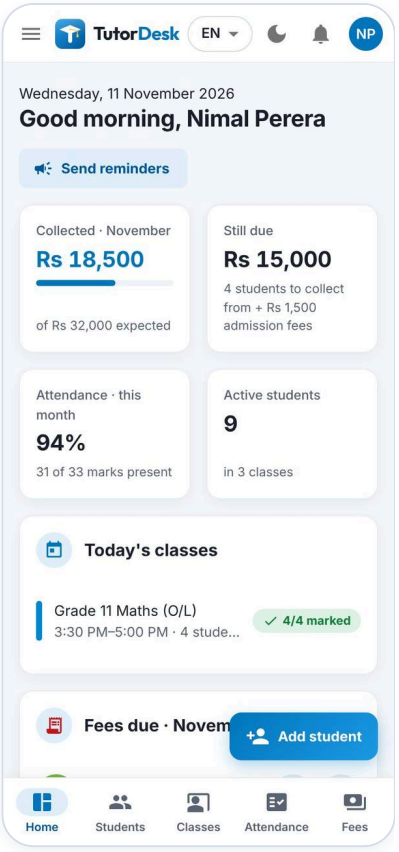

Creating an account

2 Finding your way around

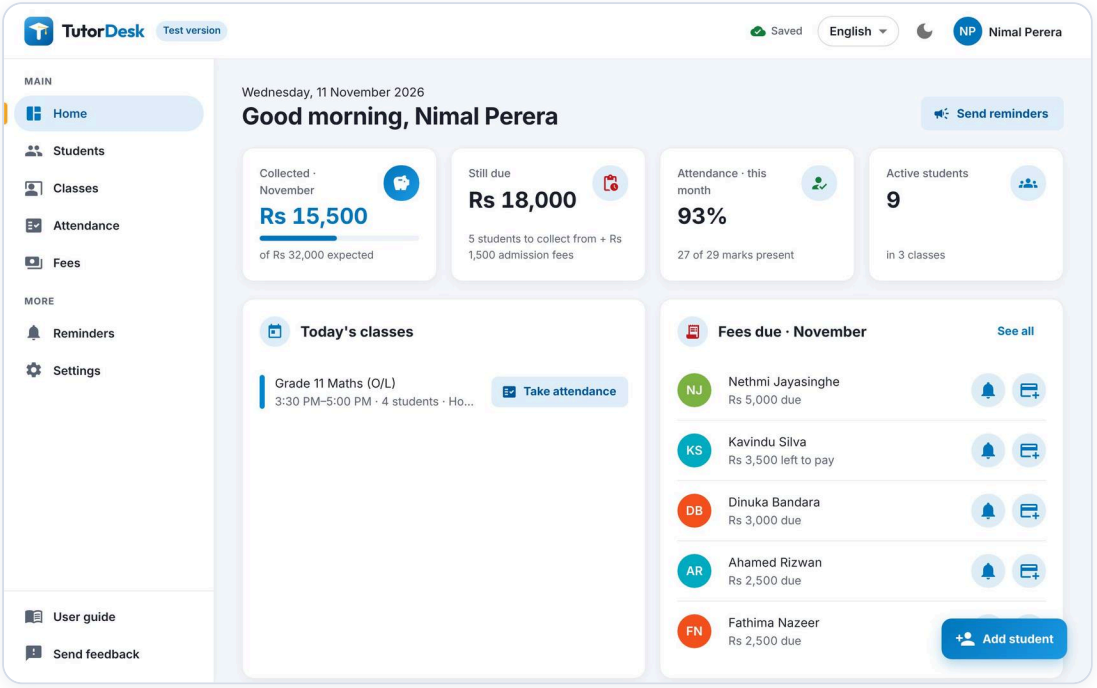

Home shows what matters today: money collected, fees still due, attendance and today's classes.

1. On a computer the menu is on the left. On a phone the main pages are at the bottom – tap ☰ at the top left for the full menu.
2. The menu has **Home**, **Students**, **Classes**, **Attendance** and **Fees**. On a phone, **Reminders** is the bell at the top.
3. At the top you can change the language, switch between dark and light (sun/moon button), and open your account.
4. Everything saves by itself – the cloud at the top shows when it's saved.

> 💡 **Tip** Add TutorDesk to your phone's home screen so it opens like an app: in Chrome tap ⋮ → Add to Home screen; on iPhone tap Share → Add to Home Screen.

Home on a computer

3 Setting up your classes

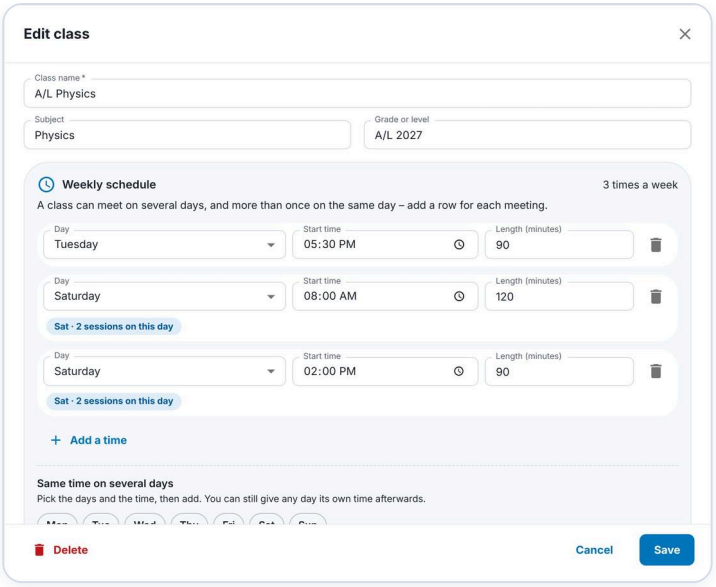

A class can meet on several days a week, at the same time or at different times – even twice on the same day.

1. Go to **Classes** and tap **Add class**.
2. Type the class name, subject and grade.
3. Under **Weekly schedule**, add one row for each meeting: choose the day, start time and length. Tap **Add a time** for another row.
4. Same time on several days? Use **Same time on several days**: tick the days, set the time, and add them all at once. You can still change any one day afterwards.
5. Enter the monthly fee. If the class has a one-time **Admission fee**, enter it too – each student pays it once.

> 💡 **Tip** The class card shows the weekly timetable, number of students, fees and attendance rate.

Your classes

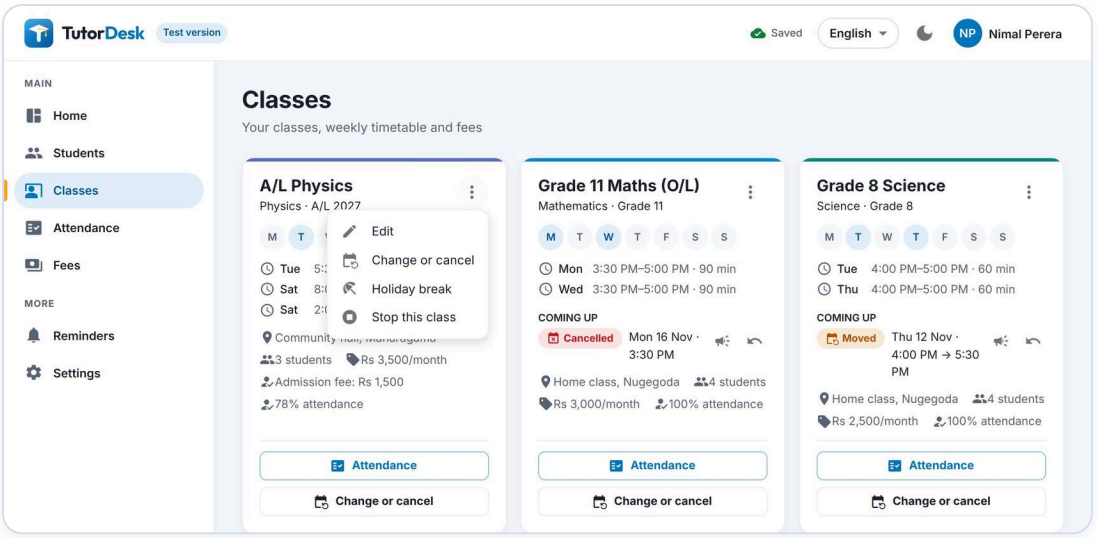

Adding or editing a class

4 Changing the timetable

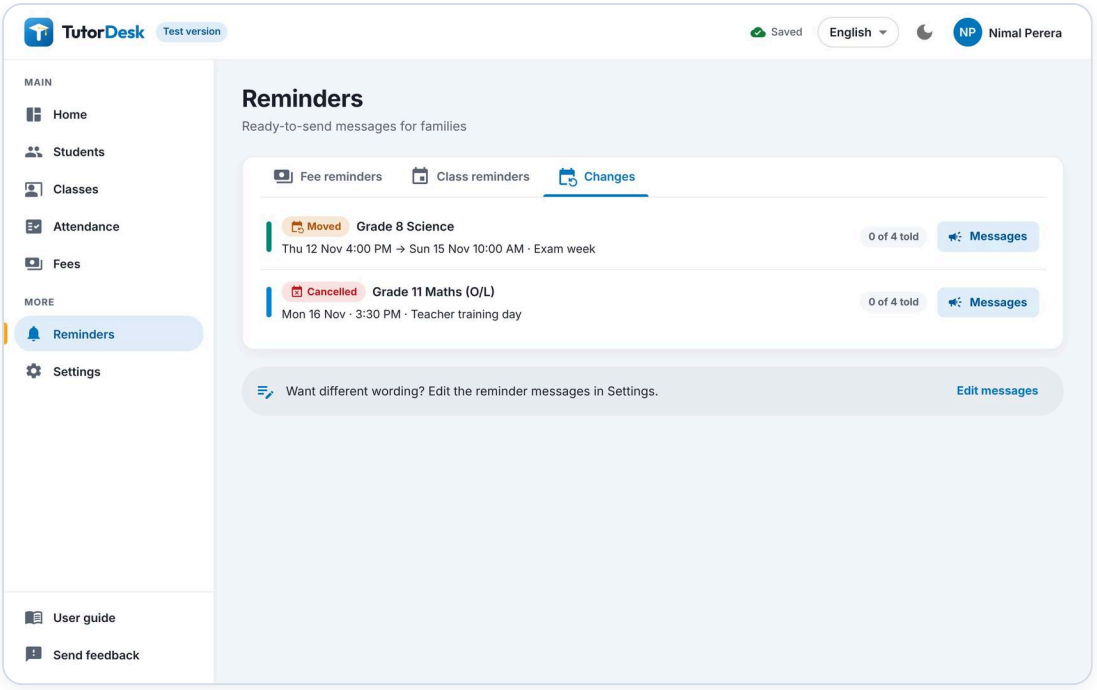

Plans change. Tap ⋮ on a class card to change one class, add a break, or change the timetable for good. TutorDesk then writes the message for families.

1. **Change or cancel** – for one class only: **Cancel it**, **New time, same day** or **Move to another day**. The weekly timetable stays the same.
2. **Holiday break** – no classes between two dates, for example school holidays.
3. **Stop this class** – the class ends after a last day. You can restart it later.
4. **Edit** – change the weekly timetable permanently. Choose the date the new timetable starts; earlier classes keep their old times.
5. Tap **Save and notify**. You'll see a message for every family in their own language: send it with WhatsApp or SMS, or use **Copy group message** for your class WhatsApp group.

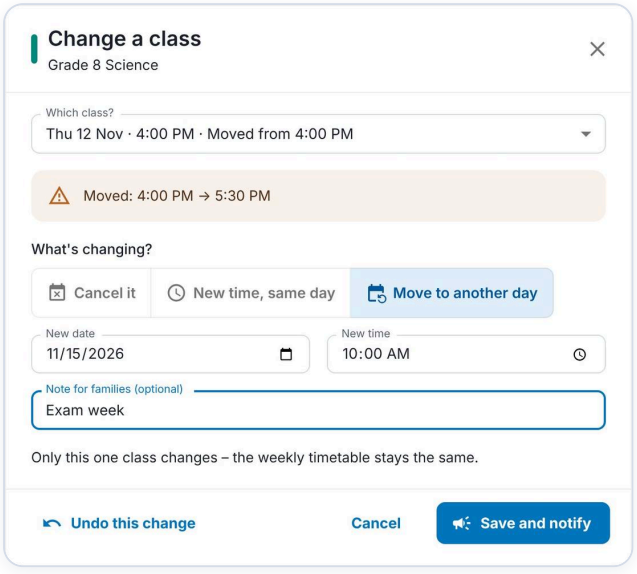

> 💡 **Tip** **Reminders** → **Changes** lists every upcoming change and shows how many families you've told.

Messages for families

5 Adding students

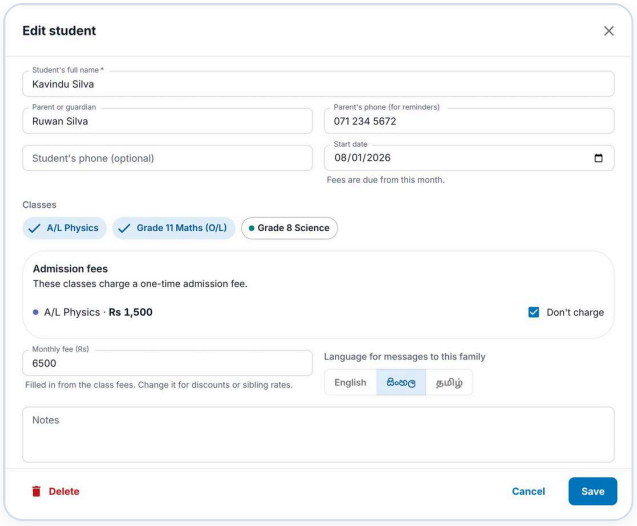

Each student belongs to one or more classes. The parent's phone number is used for WhatsApp and SMS messages.

1. Go to **Students** and tap **Add student**.
2. Type the student's name, the parent's name and the parent's phone number.
3. Tap the student's classes under **Classes**. The monthly fee fills in by itself – change it for discounts.
4. If a class has an admission fee and you don't want to charge this student (for example a sibling), tick **Don't charge**.
5. Choose the **Language for messages to this family** – reminders to this family will be written in that language.

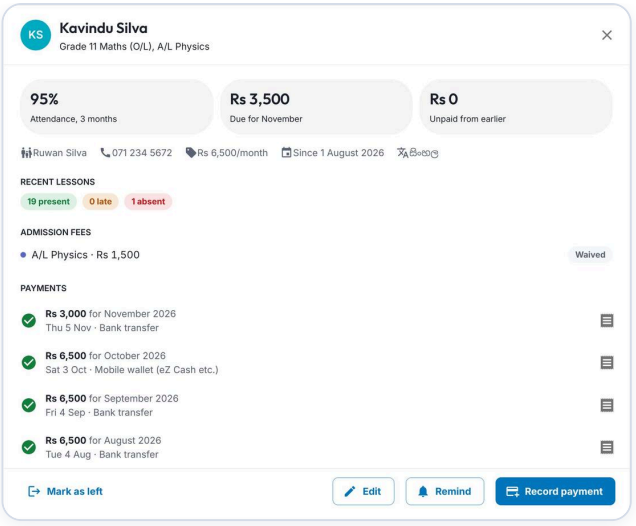

> 💡 **Tip** Tap a student to see their attendance, fees, admission fees and payments. A student who stops coming can be marked as left – their history is kept.

Student details

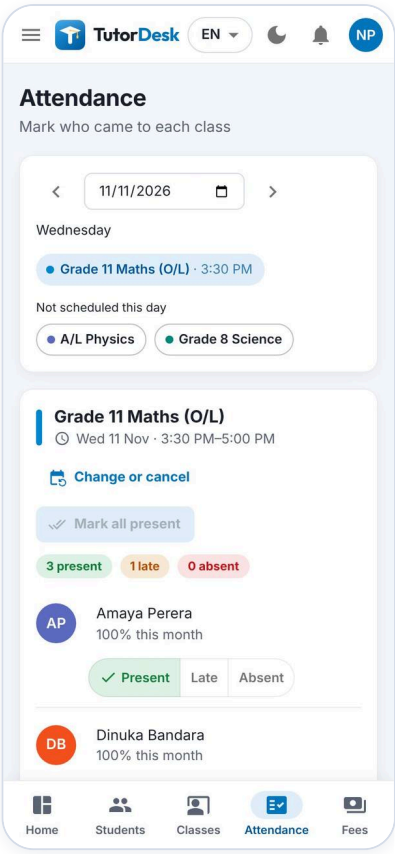

A student's summary

6 Taking attendance

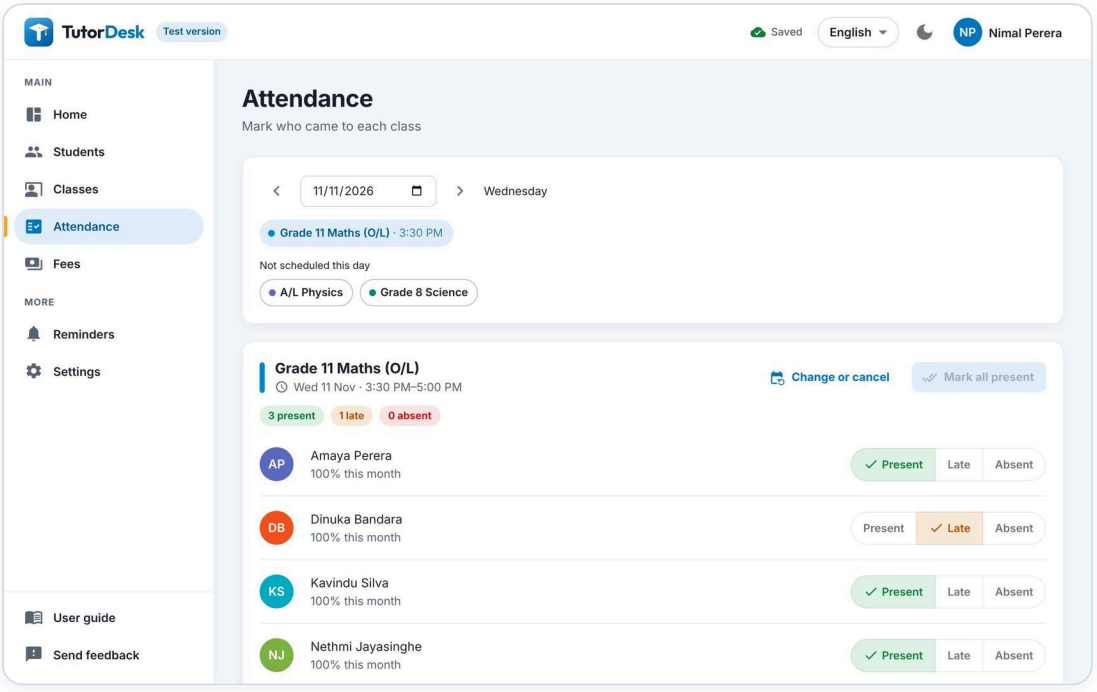

Each class meeting has its own register, so a morning and an afternoon class on the same day are kept separate.

1. On **Home**, tap **Take attendance** next to today's class – or open **Attendance**.
2. Tap **Present**, **Late** or **Absent** for each student. Tap again to undo.
3. Most students here? Tap **Mark all present** first, then change the few who are late or absent.
4. Use the arrows to go to another day. Cancelled or moved classes are shown so nothing gets mixed up.

> 💡 **Tip** Further down the page, the monthly register shows every class meeting and each student's attendance rate.

Taking attendance

7 Fees, payments and receipts

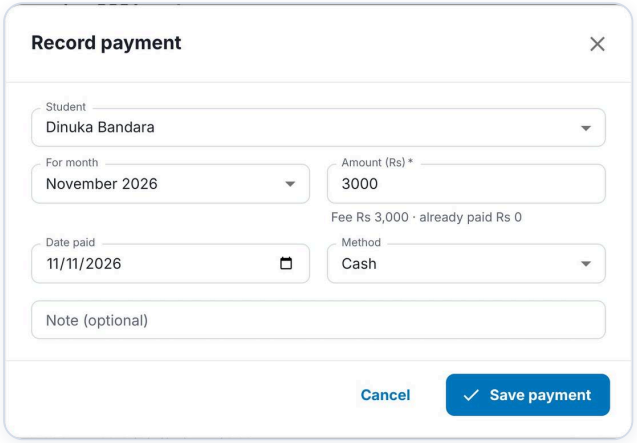

Fees shows who has paid, who has partly paid and who still owes for the month – plus anything unpaid from earlier months.

1. Tap the card button next to a student, or **Record payment**.
2. Choose **Monthly fee** (and the month) or **Admission fee** (and the class).
3. Check the amount, the date and how they paid, then tap **Save payment**. Part payments are fine.
4. Open the **Receipt** and tap **Send on WhatsApp** to send it to the parent, or **Copy receipt**.
5. Deleted a payment by mistake? Tap **Undo** straight away.

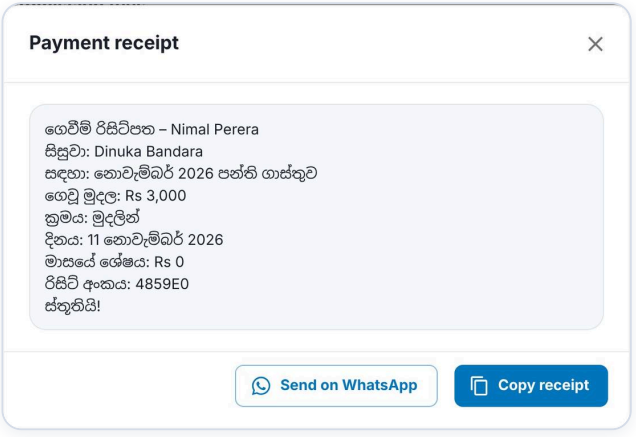

> 💡 **Tip** Use the arrows at the top of **Fees** to look at earlier months.

Fees for the month

Recording a payment

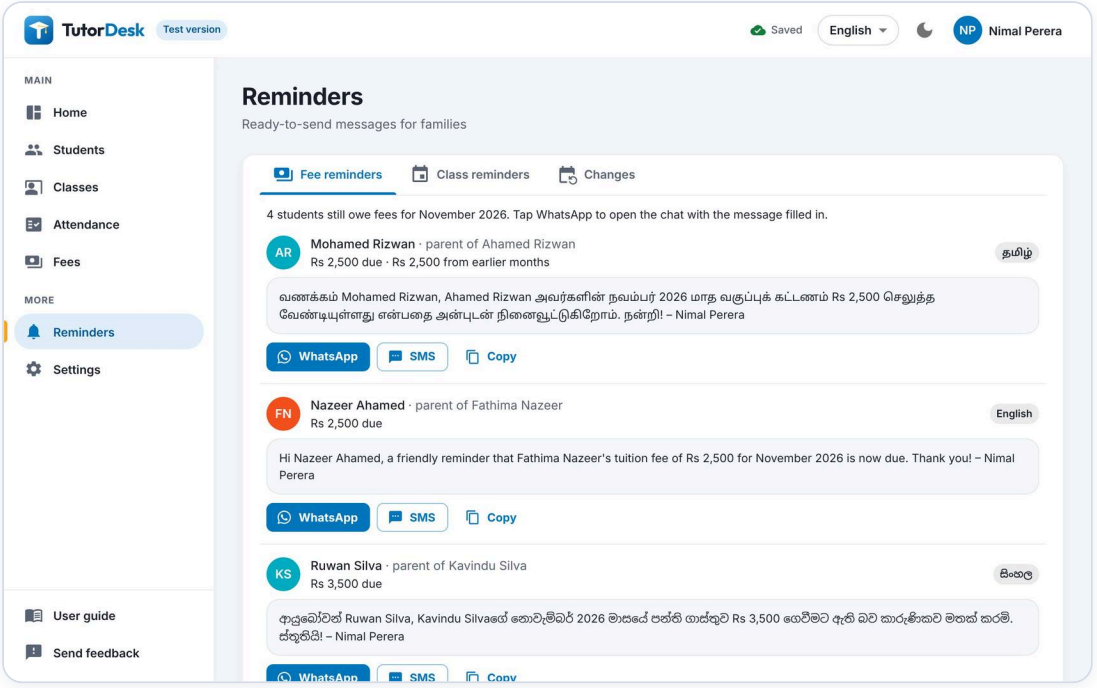

A receipt ready to send

8 Reminders to parents

TutorDesk writes polite reminders for you. They are sent from your own phone, so parents see your number.

1. Open **Reminders** (on Home, tap **Send reminders**).
2. **Fee reminders** lists every family that still owes fees, with a ready message.
3. **Class reminders** shows **Today** and **Tomorrow**'s classes, with a message for each family.
4. Tap WhatsApp or SMS to open the message on your phone, or **Copy** it. The reminder is marked as sent.

> 💡 **Tip** Each family gets the message in their own language. You can change the wording in **Settings** → **Reminder messages**.

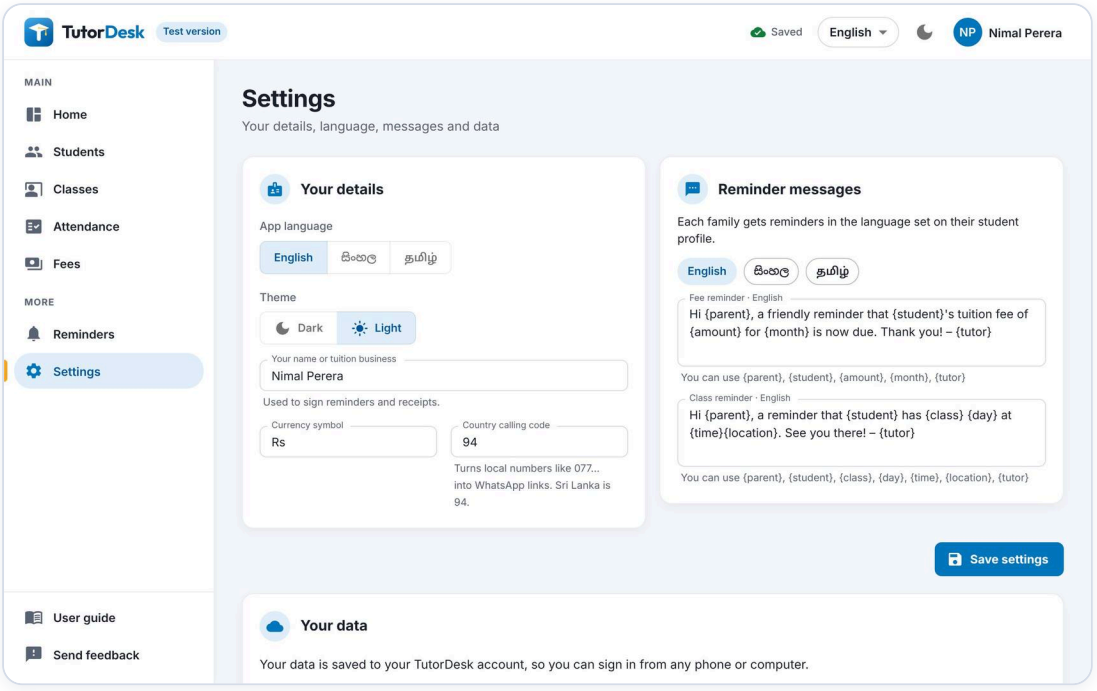

Fee reminders

9 Settings and your data

Make TutorDesk yours.

1. **App language** – English, සිංහල or தமிழ். It changes straight away.
2. **Theme** – dark or light.
3. **Your name or tuition business** – used to sign your messages and receipts.
4. Currency and **Country calling code** – 94 for Sri Lanka, so phone numbers like 077… work with WhatsApp.
5. **Reminder messages** – change the wording in each language, then tap **Save settings**.
6. **Download backup** now and then to keep your own copy. **Restore from backup** brings a backup back.

> 💡 **Tip** Your data is saved to your account, so you can sign in on any phone or computer and see the same students and classes.

Settings

10 Help and feedback

This is a test version – your feedback makes it better.

1. Found a problem or have an idea? Tap **Send feedback** at the bottom of the menu, or **Test version** at the top. Tell us what you did, what happened and what you expected.
2. Forgot your password? Use **Forgot password?** on the sign-in screen. If the email doesn't arrive, check Spam, or ask the person who invited you.
3. Finished on a shared computer? Tap your initials → **Sign out**.
4. You can open this guide any time: **User guide** in the menu, or on the sign-in screen.

> 💡 **Tip** Your students' details are private to your account. Read the privacy notice from the sign-in screen.
